Gruppo Permare, builders of Amer superyachts, has delivered the first Amer 100 superyacht, which arrived in Cannes earlier this, where she is on display at the 2013 Cannes Boat Show.

The Amer Cento measures 100 ft, and is based on the yard's award winning 92' and 116' series. The yacht has some innovative features, such as balconies, a bow Jacuzzi and outdoor access to wheelhouse by means of a gull wing door.

The Amer Cento can cruise using just one engine at 12 knots, with a fuel consumption of just 90 liters per 100 nautical miles.

The yacht's twin 1925 hp MTU 12V2000M94 engines can also provide a top speed of 29 knots.
